REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: claims 1 – 34 are allowable over prior art of record. The prior art of record failed to teach. A correlator for correlating an input data signal with a code for use in effectively realizing a plurality of rake receiver fingers comprising sample register, a single code register, a single multiplier coupled to said sample register and said code register, said multiplier adapted to multiply the output of said sample register with output of said code register, a single adder adapted to add the output of said multiplier with a correlation sum output of last stage of an M-stage integration result shift register and to produce an updated correlation sum therefrom and said M-stage integration result shift register adapted to store M constellation sums wherein updated correlation sums output of said adder are shifted into said integration result shift register at a over-sampling clock rate such that the over-sampling phase of the correlation sum at the output of said integration results shift register corresponds to the correlation sum currently at the input to said adder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
